

MLT-632AF

Ultra-thin Small Scissor Lift

Model: MLT-632AF
Capacity: 3200Kg
Lifting height: 2000mm
Initial height: 110mm
Lifting time: $\leq 60s$
Lowering time : $\geq 20s$
Runway width: 620mm
Runway length: 1460-2060mm
Advised distance between two runways:
800mm
Overall width: 2040mm
Safety method: Mechanical safety lock +
pneumatic release
Motor power: 2.2kw
Motor voltage: 380V/3PH or 220V/1PH

Features:

- Extended platform
- Ultra-thin structure design is applicable for on-ground arrangement
- Hydraulic interlocking and anti-explosion safety device makes it stable and reliable operation.
- Travel limit safety device, protects machine from being damaged.
- Oil hose anti-explosion device.
- One-key leveling, easy and simple (optional)
