Performance Tires by Cooper

Performance Enthusiast

**PREMIUM LIMITED WARRANTY**  
**FREE 45-DAY ROAD TEST!**  
**DIRECTIONAL TUNER**  
**H-RATED**

The ZPT is a premium all-season performance tire targeted to the “tuner” market. The ZPT provides a high-performance “look” at an affordable price. It is especially suited for foreign and domestic compacts that have undergone tire and wheel “plus fitment” upgrades.

**Fitments:**  
Eclipse, Civic, Lancer, Focus, Plus Fitments

M+S Rated

**DIRECTIONAL TREAD**

The directional tread pattern cuts through surface water to help prevent hydroplaning. Directional capability also helps provide outstanding traction and handling.

**PERFORMANCE RATING**

Indoor-wheel tested to meet or exceed the original equipment requirements of many automobiles, minivans and crossovers.

**ALL-SEASON**

With a deep tread depth and high void ratio, this all season design provides excellent traction in all types of weather conditions throughout the year.

**PERFORMANCE ENGINEERED PACKAGE**

This performance radial combines spiral wound nylon overwrap, steel belts and a polyester cord body in a solid, high tech construction package to meet car enthusiasts’ demands for responsive handling.

**OPTIMUM MOLD PROFILE**

Using state of the art finite element modeling technology, an optimum mold profile was selected to provide excellent handling characteristics.

**SPIRAL WOUND NYLON OVERWRAP (S.N.O.W.)**

Spiral wound nylon overwrap combats centrifugal force under high-speed applications. This ability inhibits tire “growth” and maintains stability and carcass integrity.

**PERFORMANCE APEX**

The hardened rubber compound, or bead filler, above the bead discourages sidewall flex in cornering. The result is crisp handling.

**TAPERED TREAD**

This design feature puts deep tread in the center and slightly shallower tread in the shoulders. This puts more rubber down in the fastest wearing part of the tire, the center. The result is less weight and improved wet handling.

ALWAYS CONSULT AND FOLLOW THE VEHICLE MANUFACTURERS’ REPLACEMENT TIRE RECOMMENDATIONS AND WARNINGS. Use the information on the vehicle placard and vehicle owner’s manual to identify original equipment air pressure, tire size, speed rating and load capacity. Cooper Tire reserves the right to change and improve construction, materials or specifications without notice or obligation. Contact your Cooper dealer or Cooper Tire for current information.
